# ZINSTABE? 2427 Specialty Zinc Oxide

## Data Sheet Under Development

### DESCRIPTION

ZINSTABE? 2427 is a powdered zinc compound with auxiliary modifiers. It is an activator-stabilizer designed to serve as both a decomposition catalyst for azodicarbonamide. It promotes rapid and efficient gas release and good heat stability. ZINSTABE? 2427 is resistant to sulfide staining and has moderate to high lubricating properties.

### USES

ZINSTABE? 2427 is used primarily for calendered, post-expanded vinyl and vinyl-rubber foams.

### TECHNICAL DATA

#### Representative Physical Properties

Form .....Free flowing powder  
Color .....White  
Specific Gravity .....  
Bulk Density .....  
Solubility .....Can be dispersed into plasticizer or vinyl with conventional mixing equipment.  
Activation Temperature .....
